

### **REMARKS**

In the amendments to the specification, the text "(referred to as Inceptor Excedia in the assignee's working model)" and "Inceptor Excedia" have been deleted. This is not a substantive change to the written description as this text only identifies a trademark that the applicant used, at the time of filing, to label the invention. Since filing this patent application, a trademark application by the applicant for "EXCEDIA" was opposed, and the applicant agreed not to use the mark. Accordingly the application is amended to delete occurrences of this trademark in the specification.

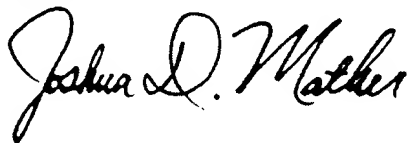

This trademark also appeared in Figure 1 of the original drawings. In the replacement drawings, "Excedia" has been deleted from Figure 1-2 item 10, and Figure 1-3 item 12. This also is not a substantive change as these items are still functionally described.

There are no amendments to the claims. The listing of claims shows the claims as allowed on 12/28/2005.

### **Summary**

Applicant respectfully submits that the application is in condition for allowance. Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully Submitted,

Joshua D. Mather  
Registration No. 53,282  
Customer No. 30,948
